FLOR 401 LOFTS APARTMENTS SUMMARY AND RECOMMENDATIONS

Applicant:	The Skid Row Housing Trust
Action:	Initial Resolution
Amount:	\$50,000,000
Purpose:	Finance Affordable Multi-Family Rental Housing Facility Located in the City of Los Angeles, Los Angeles County, California
Activity:	Affordable Housing
Meeting:	May 20, 2016

Background:

In 1989, community activists and business leaders of Los Angeles' downtown community responded to an alarming disappearance of affordable, permanent housing by coming together to create Skid Row Housing Trust. The Trust swiftly mobilized private equity through low income tax credits, public finance and conventional debt to salvage hundreds of housing apartments that would have been otherwise lost.

Dilapidated hotels were renovated and transformed into safe, attractive and affordable permanent housing in which low-income and formerly homeless men and women could live and thrive.

Over the past twenty five years the Trust has refined its homes to provide not just housing but a supportive community as well. The Trust has increasingly targeted its homes to long-term homeless and disabled men and women, with an emphasis on co-locating housing and services together. By providing an integrated approach to housing, primary healthcare, mental health treatment, substance abuse treatment, and counseling, the Trust provides many of the tools needed to overcome the causes of homelessness.

The combination of beautifully designed, high quality housing, professional property management, and innovative social service provision has made Skid Row Housing Trust the national leader in ending homelessness.

The Project:

The Flor 401 Apartments is a new construction development consisting of 99 units. There will be 98 studio units and one 2-bedroom unit for the on-site property management staff. The project will adaptively reuse an existing industrial warehouse as its ground floor space, approximately 13,000 square feet, and will feature an additional five stories, totaling approximately 60,000 square feet.

The efficiency units are approximately 370 square feet in size and the two-bedroom unit is approximately 850 square feet in size. Each unit will have a private bathroom and kitchen. The units will also be fully furnished. Additionally, units will be equipped with central heating and air conditioning. Common area amenities include ground floor services offices, space for on-site case management and group therapy, bicycle rack, on-site parking and computer lab area for resident use. The ground floor will feature dedicated office space for property management and workshop/storage for maintenance and janitorial staff. The second floor will serve as the community space hub, featuring an open courtyard centered between the kitchen, lounge, community laundry space, and additional community lounge area. The second floor will also feature an outdoor activity space which may be used for community activities as well as supportive services programming. The fifth floor will feature an outdoor roof lounge area for residents to enjoy outdoor privacy. All utilities will be paid by the owner. This financing will help preserve 98 units of high quality, affordable housing for formerly homeless individuals in the City of Los Angeles for the next 55 years.

SENATOR APARTMENTS SUMMARY AND RECOMMENDATIONS

Applicant:	The Skid Row Housing Trust
Action:	Initial Resolution
Amount:	\$18,000,000
Purpose:	Finance Affordable Multi-Family Rental Housing Facility Located in the City of Los Angeles, Los Angeles County, California
Activity:	Affordable Housing
Meeting:	May 20, 2016

Background:

In 1989, community activists and business leaders of Los Angeles' downtown community responded to an alarming disappearance of affordable, permanent housing by coming together to create Skid Row Housing Trust. The Trust swiftly mobilized private equity through low income tax credits, public finance and conventional debt to salvage hundreds of housing apartments that would have been otherwise lost.

Dilapidated hotels were renovated and transformed into safe, attractive and affordable permanent housing in which low-income and formerly homeless men and women could live and thrive.

Over the past twenty five years the Trust has refined its homes to provide not just housing but a supportive community as well. The Trust has increasingly targeted its homes to long-term homeless and disabled men and women, with an emphasis on co-locating housing and services together. By providing an integrated approach to housing, primary healthcare, mental health treatment, substance abuse treatment, and counseling, the Trust provides many of the tools needed to overcome the causes of homelessness.

The combination of beautifully designed, high quality housing, professional property management, and innovative social service provision has made Skid Row Housing Trust the national leader in ending homelessness.

The Project:

The Senator Apartments is an acquisition/ rehabilitation of an existing 98-unit affordable multi-family rental development located at 729 S. Main Street, Los Angeles, California. The project involves the refinance of existing public debt with 4% Low Income Housing Tax Credits and tax-exempt bonds, HCD Veterans Housing and Homeless Prevention Program funds. Renovations include the retrofitting of major building systems to increase the physical lifetime and energy efficiency of the building and increase the financial sustainability of the site. The project will be made up of one-bedroom apartments serving formerly homeless households making 30% & 40% or less of Area Median Income.

Amenities include a community kitchen and lounge, as well as laundry rooms. This financing will help preserve 97 units of high quality, affordable housing for very low income households in the City of Los Angeles for the next 55 years.

LAUREL GROVE LANE APARTMENTS SUMMARY AND RECOMMENDATIONS

Applicant: Housing Authority of the County of Santa Clara

Action: Final Resolution

Amount: \$47,696,218

Purpose: Finance Affordable Multi-Family Rental Housing Facility Located in the City of San Jose, Santa Clara County, California

Activity: Affordable Housing

Meeting: May 20, 2016

Background:

In 1967, the Santa Clara County Board of Supervisors established the Housing Authority of the County of Santa Clara ("HACSC") as an independent local government agency to administer the federal rental assistance programs authorized by the United States Housing Act of 1937. Since 1976, HACSC has operated the federal rental assistance programs of the County of Santa Clara and the City of San José as one program. In 2008, Congress designated HACSC a Moving to Work (MTW) demonstration agency.

Their agency assists about 17,000 households through the federal rental housing assistance program. They also develop, control and manage affordable rental housing properties. The majority of their program funding comes from the U.S. Department of Housing and Urban Development (HUD). Their programs and properties are targeted to assist low, very low and extremely low-income households. The vast majority—more than 80%—of their client households are extremely low-income families, seniors, veterans, persons with disabilities and the formerly homeless. Working together with landlords, housing developers, charities and local governments, they strive to provide housing and support services to as many eligible families as possible.

In all of their operations, HACSC works toward being a model for the innovative use of federal funds in the Section 8 program and in leveraging funds and community partnerships to develop new affordable housing and to preserve existing affordable housing.

The Project:

The Laurel Grove Lane Apartments is an affordable multifamily acquisition/rehabilitation project that will consist of an 82-unit housing community located in San Jose, CA. The development will offer one, two and three bedroom units, as well as onsite laundry, property management and service offices, a community room with kitchen, and a tot lot. Laurel Grove Apartments is located adjacent to the downtown Diridon Transit Station, providing residents with immediate access to trains, light rail, buses and bike share. MidPen’s developments are award winning and nationally recognized. MidPen has extensive experience in site acquisition and planning, entitlements, community outreach, design, and construction management. The organization has a solid track record in securing both public and private funding and proven expertise in positioning projects for long-term financial sustainability. The Project:

The City Center Plaza project is an acquisition rehabilitation of an 80-unit affordable multi-family housing development. City Center Plaza was developed in 1997 with low-income tax credits. Site landscaping and lighting are inefficient and will be modernized to meet sustainability goals and improve building performance. Garage waterproofing is failing and needs to be addressed and corrected. Unit interior elements will also be modernized, focusing on improving indoor air

quality. Where applicable, the scope of work will also include upgrades to older HVAC equipment, bath and kitchen features, and outdoor space. The project is located at 950 Main Street, Redwood City, California. This financing will continue to preserve 80 units of affordable housing in Redwood City for the next 55 years.

The University emphasizes professional education, access to classes, timely degree completion, and comprehensive liberal arts institutions. The University focuses on narrow market niches rather than presence in a broad range of academic fields.

The CMFA Revenue Bonds (Woodbury University Project), Series 2014 were issued on December 23, 2014 in the aggregate principal amount of \$38,500,000 (the "Bonds"). It is now requested that a portion of proceeds of such Bonds in an amount not expected to exceed \$13,500,000 be used to finance or refinance all or a portion of the costs of acquisition, construction, renovation, improvement and/or equipping of a two-story approximately 36,470 square foot building located at 7530 North Glenoaks Boulevard, Burbank, California 91504 and to pay certain related expenses (collectively, the "New Project"). The New Project facilities are to be owned by Woodbury University, a California nonprofit public benefit corporation (the "Borrower") and are expected to be used by the Borrower for educational classroom, lab and studio space, student meeting spaces, and administrative offices. The application of the proceeds described above will not involve the issuance of any new bonds, but will allow the Borrower to finance costs of the New Project with proceeds of the Bonds in addition to those projects and costs previously approved pursuant to Section 147(f) of the Code.

Woodbury University's mission is to provide the highest level of professional and liberal arts education. The integrated nature of its educational environment cultivates successful students from all walks of life with a strong and enduring sense of personal and social responsibility. Since 1884, Woodbury has educated more than 75,000 alumni who have built businesses large and small, led magazines, established accounting and architecture firms, become noted fashion designers, amassed fortunes, won design competitions, held public office, led non-profit organizations and much more.

The University has embarked on a major rebuilding of its student residence core. Living on campus is convenient. Classes and campus resources such as the dining hall, the Los Angeles Time Library, computer labs, staff and faculty offices, academic support services, and sports courts are all within walking distant. Research shows that students who live on campus have higher GPAs and are more likely to graduate. The residential housing plan envisions a new on-campus 255 bed suite style residence hall. The new residence hall will greatly enhance the recruitment and retention of students and their satisfaction with the residence experience. It will help the University's strategic plan to increase non-local students.

This initial financing increased the capacity of the institution to provide educational services to the students served.

PROPERTY ASSESSED CLEAN ENERGY (“PACE”) SUMMARY AND RECOMMENDATIONS

Action	Approve BlueFlame Energy Finance Program Administrator Agreement
Purpose:	Property Assessed Clean Energy (“PACE”)
Activity:	PACE Financing and Refinancing of Energy Efficiency, Water Efficiency, Renewable Energy Generation and Seismic Improvements
Meeting:	May 20, 2016

Background:

Property Assessed Clean Energy (“PACE”) programs help local economies and the environment by providing financing for energy and water efficient improvements and renewable energy systems. Communities with PACE programs have increased construction activity, created jobs, lowered utility bills and reduced greenhouse gas emissions. Through the PACE Program, property owners can apply for low cost financing for improvements such as installing solar energy systems, replacing an old air conditioning system, air sealing and weatherization, and installing insulation. Property owners repay the financing through their property tax bill over the useful life of the installed products.

Discussion:

On April 8, 2016 the CMFA approved initiating discussions with BlueFlame Energy Finance as a potential program administrator under the CMFA Open PACE Program. BlueFlame is located in Carlsbad, CA and is offering PACE installations for commercial solar and battery storage. BlueFlame meets the CMFA Criteria for New PACE Administrators and the Program Administrator Agreement has been reviewed by Jones Hall.

Public Benefit:

PACE programs encourage energy and water efficiency and diversifies energy sources, both of which reduce the impact on existing infrastructure. Furthermore, PACE programs provide property owners with a low cost alternative to financing major energy and water efficiency improvements and renewable energy retrofits. The program helps the economies of the communities we serve by creating new jobs and retaining existing jobs.

Recommendation:

The Executive Director recommends the CMFA Board of Directors approve BlueFlame Energy Finance Program Administrator Agreement with the CMFA.

WAVERLY PLACE APARTMENTS SUMMARY AND RECOMMENDATIONS

Applicant:	Mental Health Association of San Mateo County
Action:	Initial Resolution
Amount:	\$9,000,000
Purpose:	Finance Affordable Multi-Family Rental Housing Facility Located in the City of Redwood City, San Mateo County, California
Activity:	Affordable Housing
Meeting:	May 20, 2016

Background:

The Mental Health Association of San Mateo County (MHA), a nonprofit organization, enriches quality of life, restores dignity, and reduces homelessness, particularly for those affected by mental illness and HIV/AIDS. MHA strengthens hope by providing shelter, support and opportunities for socialization. The Mental Health Association of San Mateo County (MHA) works to improve the quality of life for people in our community who suffer from mental illness. MHA seeks to ensure accessibility to adequate resources and works to guarantee that each person can live as independently and productively as possible.

The organization known today as the Mental Health Association of San Mateo County was created over 60 years ago. The MHA began as a volunteer organization providing services to children, and has increased in scale and scope of services over the years since. For a graphical history of the evolution of the organization,

The MHA runs multiple programs. The Friendship Center Program is one of MHA's oldest and most successful programs. The Friendship Centers were opened in 1970, in recognition of the need for socialization activities for adults with mental illness. The Community Housing Rehabilitation Independent Skills (CHRIS) Program is dedicated to helping clients improve activities of daily living (cooking, cleaning, hygiene, safety). Licensed occupational therapists and occupational therapy interns assess clients' abilities and then provide training and specific interventions, supports and physical adaptations to enable adults with mental illness to participate in community activities at the highest level of independence possible. The Community Friend Program is a peer mentoring program, designed to support individuals in the community who have mental illness. Support and Advocacy for Young Adults in Transition (SAYAT) helps 18-23

year olds develop the skills and goals necessary to transition successfully to self-sufficiency. SAYAT clients may or may not have a mental illness diagnosis.

The Project:

The Waverly Place Apartments is a new construction development of a 16-unit multifamily affordable housing project. The vision of the project is to create a permanent supportive housing development for the chronically homeless mentally ill individuals. The development will provide a community room with full kitchen, four offices, a lobby, a laundry room on each floor, around an interior courtyard. Our target population is children, ages seven to fifteen, of incarcerated parents. There are over 70,000 of these victims in Southern California, and statistics show that these children are five times more likely to end up in prison (The Barna Research Group).

The founding family chose to serve this population because of a child's cry to God in a Sunday school classroom for his Daddy that was taken away to prison. Sunday school teacher Sophia Pirelli shared with her family how this little boy touched her heart! That day the Lord put a desire and passion in the hearts of the family to serve and minister to these vulnerable children, and at that point the family chose to dedicate the family ranch to these high-risk forgotten hurting and needy victims.

Mission:

When we fail to provide for the education of the next generation, we fail our community. There are sparks of incredible education models throughout San Diego, but too often they remain isolated in their original school or region, or falter before they begin. Launched in October 2013, The Education Synergy Alliance (ESA) is a group of educators, business leaders, community members and innovators charged with scaling the isolated successes in our region.

Our goal is lasting system change, not short-term fixes. We believe we can make this happen by connecting change agents in the community to the partners, ideas and information they need to ensure these initiatives succeed. However, we do not implement programs. We believe the schools and their non-profit partners do it best.

HOGP's mission is simple and yet addresses a profound issue that has serious social consequences. We are dedicated to helping victims of domestic violence in a holistic approach. This approach includes initial contact through the 24-hour hotline, to counseling, to providing shelter, and through relocation. Within these general categories of service there exists a wide range of needs that HOGP works to meet.

HOGP's shelter lies at the heart of the residential program. Women and children who are displaced due to incidents of domestic violence are provided safe, clean, housing, and necessities. The ICA Board, in conjunction and in coordination with its legislative consultant, review every single bill and budget proposal that might have impact to the Association. Once items of import have been identified the Board will take action on a limited number of proposals to engage and educate policy makers on the cost/benefit of a proposed item. Because the ICA chooses to actively engage on a select amount of items per year, the Association's track record for success is quite exceptional. Instead of diluting our voice by engaging hundreds of bills, the ICA will target specific items and work hard to achieve an outcome in the best interest of its members.

The Kennedy Commission originally convened in 1995 as an all-volunteer organization. Formally incorporated in 1999, the Kennedy Commission was named in memory of Orange County resident Ralph Kennedy, a pioneer of affordable homes and human rights advocacy. Through our extensive network, the Kennedy Commission works at the local, state, and federal levels to provide education on housing needs and to help create public policy that results in the production of homes that are affordable to those earning less than \$10.00 per hour.

Mission:

Mission - Tomorrow's Aeronautical Museum is a living classroom bringing aviation history to life and empowering the dreams of youth to take flight. Interactive exhibits explore racial diversity in the evolution of modern flight, while our dynamic nonprofit flight academy and after-school programs offer STEM (science, technology, engineering, and math) enrichment as a compelling alternative to drugs, gangs, violence and other self-destructive activities.

Vision - We envision healthy communities where all youth receive the support they need to graduate high school, go to college, give back to their communities, and become future contributors in the fields of science, aeronautics, and technology.
